

Dr. Jason Pirozzolo

Jeff B. (11/22/2025)

"The front desk staff welcomed me with kindness and genuine professionalism. Dr. Jason was fantastic!! He even remembered me from my last visit and listened closely to my concerns. The cortisone injection was painless, and I felt almost complete relief by the day after. He also took the time to talk me through possible next steps, and future treatment options. I'm so thankful to have found Dr. Jason! I left feeling cared for, and so glad he is a doctor in our Key West community!!"

Reefgal2 (11/13/2025)

"I'm a 67-year-old woman and I broke my arm at the end of July. From the moment I met Dr. Jason I knew I was in good hands. He listens he's gentle and really just a wonderful person. He took care of me as if I were a family member, and for that reason alone I would recommend him to anyone who needs an excellent Orthopedic."

Taylor M. (11/12/2025)

"Dr. Jason was extremely thorough and helpful when I broke my wrist. I was in town to be in a wedding and he catered the experience to help make the wedding photos a success along with ensuring safety and follow-through when I got home. He provided me with all the information that I needed before I could think to ask for it."

George F. (11/10/2025)

"I was referred by my exceptional Chiropractor, Dr. Laurence to Dr. Jason Pirozzolo at Key West Concierge Orthopedics. Dr. Jason addressed my meniscus pain and swelling with excellent medical care. The professionalism that Dr. Jason and the staff provided was exemplary in every respect. From x-rays to a customized detailed 2-page road map of do's and don'ts on how to achieve a smooth recovery more than validates why I am sincerely grateful to have gone to Dr. Jason. I strongly recommend his orthopedic services!"

Christina M. (November 11, 2025)

"Dr Jason was great! He was very informative and answered all questions for us."

Rosario B. (November 11, 2025)

"Dr. Pirozzolo is amazing! After his painless injections, our 93-year-old mother is walking again without pain. My uncle's swollen, painful hand was back to normal just two days after treatment. He also relieved my shoulder pain with one painless injection. He truly cares and follows up after every appointment. Highly recommend him - especially if you're scared of injections!"

Mark P. (November 10, 2025)

"Omg the best shot givers ever no pain cortisone is amazing great service from front desk to doctors"

hannah c. (November 9, 2025)

"I can't recommend Dr. Pirozzolo enough! Finding a doctor in Key West can be such a challenge - and getting an appointment is even harder. I had been dealing with issues in my hand and nerves and was originally sent to Miami. That doctor barely spent five minutes with me and was completely dismissive, suggesting it was "just carpal tunnel." It was frustrating and discouraging, especially when you know something's wrong with your body and no one seems to take it seriously. Thankfully, I was able to get in touch with Dr. Pirozzolo and his team. They made room in the schedule right away, no hesitation. From the moment I walked in, he was personable, attentive, and genuinely cared about my situation. He took the time to listen, explain, and even sympathize with how stressful it had been. Instead of brushing things off, he helped me create a plan to figure out what was going on and offered practical tips I could use day to day to help manage my symptoms. Dr. Pirozzolo is knowledgeable, compassionate, and exactly the kind of doctor you hope to find. I'm so grateful for his help and highly recommend him to anyone in need of an orthopedic specialist. Super thankful!"

Susan C. (November 3, 2025)

"We have a home in Ket West. We were down visiting when my husband injured his ankle. He couldn't walk . Luckily we got to see Dr. Jason Pirozzolo at Key West Concierge Orthopedics. He was kind and compassionate, but most Importantly, he knew just what to do. My husband left the office in a boot and on crutches. The next day it was like a miracle the steroids he had been given had kicked in and he was able to walk without the boot or the crutches. I highly recommend this streamlined, efficient center with all the diagnostics we needed and the medical gear we needed. Everyone in the office provides the best professional service . Great to know Key West has such a wonderful business filled with talented orthopedic specialists. A++++"

Shannon K. (November 1, 2025)

"Dr Jason is 5 stars!!!"

Jack N. (November 1 2025)

*"*****"*

Katie W. (October 28, 2025)

"Dr. Jason goes above and beyond to provide excellent care. He's kind, thorough, and genuinely dedicated to his patients. He listens, explains everything clearly, and truly cares about your well-being. I can't recommend him enough!"

cheyanne s. (October 22, 2025)

"Dr. Jason is an amazing doctor. He has inspired me to continue to move forward in the medical field, he also takes time with his every clients/ employees. Thank you Doctor Jason :)"

Tara G. (October 21, 2025)

"Dr. Jason demonstrates excellent bedside manner and genuine compassion toward patients. He takes his time to explain diagnoses and treatment options clearly, ensuring

each patient feels heard and informed. His calm, reassuring approach helps ease patient anxiety. Patients consistently express confidence and satisfaction with their care. Best ortho in key west with little to no wait. Highly recommend!!!"

Elyssa F. (October 20, 2025)

"Best orthopedic doctor in key west!"

kevin p. (October 15, 2025)

"Absolutely the best care and support I could ask for, always encouraging me and, very grateful for him in key west"

Maggie L. (October 14, 2025)

"Dr Jason was kind, professional and very attentive. I had so many questions and he took the time to explain and educate me on what my diagnosis was and how to proceed to heal. I highly recommend Dr Jason for your orthopedic concerns."

David B (October 20, 2025)

"Super informative and professional. Definitely recommend."

VSD (October 10, 2025)

"Very kind and heloful."

Julie B. (October 4, 2025)

"I went to Dr Jason Pirozzolo because I had trigger finger in two of my fingers. Particularly my thumb was extremely sore and doing anything was causing me a lot of pain. When I went to see him he quickly assessed the fingers and had a plan action. He explained everything to me in language I could understand. He did everything possible to make the procedure quick and as painless as possible. He then provided me a detailed set of paperwork that explained my condition and provided exercises and things to avoid based on my current work and free time activities. I am so grateful for the care I received. I would recommend him to all my friends."

Jennifer T. (September 30, 2025)

"I have Seen Dr Pirozzolo on a couple of occasions for orthopedic issues in my hand and knee. Dr Pirozzolo has a fabtastic Dr/Patient demeanor, he is very patient and takes great measures to ensure you understand your issues and the treatment options. I highly recommend Dr. Pirozzolo and trust him thoroughly."

Gabriela P. (September 18, 2025)

"I took my older uncle to see Dr. Pirozzolo, and we couldn't have had a better experience. He was incredibly kind, patient, and truly compassionate. He treated my uncle with so much respect and care, really took the time to listen, and explained everything in a way that was easy to understand. His diagnosis was spot on, and we left feeling reassured and well taken care of. We are very grateful for his excellent care!"

Glen W. (September 10, 2025)

"Dr. Jason is the best on the island when it comes to common sense approach and to

orthopedic issues. He helped with pre arthritic issues. Lower lumbar issues."

Stephen A. (September 1 2025)

"Dr. Jason is detailed, thorough and friendly... you can not ask for anything more from a practitioner. I will recommend him to anyone that has orthopedic needs in the Keys!"

Bertina W. (August 22, 2025)

"I hurt my hand, they took an x-ray and Dr.Pirozzolo took a look at it nothing was broke I just had an attendant that was was inflamed so he injected cortisone I was very nervous about needles but he insured me I would be okay and that it would be painless that he had his own method of doing it that it wouldn't hurt as much and he did it was great it was painless.I was very pleased with him he was very gentle, nice, caring and helpful I would definitely recommend him."

Sherry L. (August 21, 2025)

"I had a case of "trigger finger" in my thumb. Dr. Jason Pirozzolo was great! I received a steroid shot in my thumb, which sounded kind of painful. Luckily, Dr. Jason used a special technique with the numbing medicine that limited any unpleasant feeling. Great job! He's the best!"

Alex S. (August 6, 2025)

"Weeks back I feel and dislocated my shoulder and was in incredible pain and fortunately a friend was with me and he knew exactly where to take me because doctor Jason Pirozzolo is known to be the best on the island of Key West and I have to tell you that I agree 100%! From the time that I arrived Jason and the staff worked very well together to accomplish resetting my shoulder rather than sending me to the hospital emergency room. Just as important as the initial visit, Jason's follow up was something that I have never received from any medical staff in my past! Thank you Jason for your dedication and hard work and will absolutely refer you in the future."

my simplereef (August 2025)

"First time today I have to go to the urgent care. For a shoulder pain!! And Dr. Jason Pirozzolo help me with this pain I was really scared to get the injection because in the pass I did it in the pain was bad but these time a was not. So i want to say thank you Dr. Jason !!! For the great work in customer service!! Five stars "

Valerie P. (August 2025)

"Finally found relief from a month of thumb pain when I found Dr Jason. After two visits to my GP, an x ray, and a referral to a surgeon, I went seeking treatment closer to home and discovered Concierge Orthopedics and Dr Jason Pirozzolo. My first visit brought diagnosis, treatment, and a future personal care plan to alleviate my chronic arthritis and finger pain. I am an anxious patient and his pain free injections are the answer. The entire visit and treatment , just a quick prick felt, had me feeling so well cared for and grateful to finally have relief from pain. Dr Pirozzolo's expertise and experience, along with a non surgical holistic approach, has me singing his praises and relieved to know I have access to his care anytime, right here in Key West. I've already referred friends who have had the same

experience and success with treatment. If you need relief, go see Dr Jason, everything about this doctor visit is easy and effective. I don't think you'll be disappointed, just do it!!"

Morgan M. (August 2025)

"Dr. Jason is extremely professional and very personable. I came in for a sprained ankle, and I received both thoughtful and knowledgeable advice that helped me extensively."

Katie B (August 2025)

"The staff is always so friendly when I come for a visit. Nurse Donna and Doctor Jason are very compassionate, understanding and helpful no matter what. Thank you for being awesome!"

Bob R. (August 2, 2025)

"Outstanding care by Dr. Jason Pirozzolo ! Over the years he has treated an elbow contusion; and post right knee replacement care . His knowledge and attention to detail is fantastic! Even more so is that he is an amazing listener and his patient care is top-notch ! Bravo Dr. J !! "

Paul T. (August 2, 2025)

"For all brits travelling abroad any problems come here!! I was travelling down from south beach to key west and had a trapped nerve in my shoulder I reached out to Dr Jason Pirozzolo in the morning he saw me same day at 4pm saw a triage nurse took blood pressure then saw Dr Jason he examined me gave me a steroid injection in my backside & two prescriptions for pills i was out of there by 4.20 brilliant service from everyone there it cost me £150 which I thought was more than reasonable. He also emailed the following morning to see if I was ok. If your on holiday and you get into difficulty go see these guys puts the service back in the UK to shame."

Certified S. (August 2025)

"A long time ago Dr Jason treated my ear infection and recommended me to a specialist to figure out what kind it really was now it's healed so shoutout to these folks. I originally was mad that they didn't find the infection and left 1 star but I realized that was wrong of me because Dr. Jason was the one who recommended me to the specialist and I only did that because I got in a crash and was on pain medicine with a infection so I was angry all the time. My bad guys"

John W. (July 2025)

"This urgent care is the best on the island. The ladies at the front desk are very kind and helpful. I recently had to stop in to get some staples in my leg and it was possibly the fastest urgent care visit ever. I was in and out within 30 min. Dr Pirozzolo was very friendly and fast with the staple gun. I've been several times for different reasons and never had a bad experience. Be kind to them and they will treat you well."

Darlene P. (July 2025)

"Recently, I have been experiencing sharp pain at the base of my thumb when I stretch out my hand. I haven't wanted to go into a hospital for finger pain, but I heard through the

grapevine about Key West concierge orthopedics and doctor Jason Pirozzolo, he is an orthopedic specialist. My visit with Dr Pirozzolo was so educational! I could just tell he wasn't the type of doctor to immediately say I needed surgery. Dr Jason told me about many options but I decided I wanted to come back for a cortisone injection. I'm terrified of needles but watching him do the procedure while holding an ultrasound was so cool, he was very gentle and focused. Yes, I felt the initial prick of the needle going in, but I was so busy watching the procedure on the screen that I barely even felt the rest of it. Now a few days later, I haven't felt any sharp pain in the base of my thumb! The staff at the front were very polite in the clinic was nice and clean! I would definitely recommend Dr Jason Pirozzolo and Key West Concierge Orthopedics for my family and friends!"

Dawn S. (July 2025)

"I recently had row Platelet Rich Plasma (PRP) injections with Dr. Jason Pirozzolo and I am beyond impressed by both the care and results that I received in the process. I have struggled to walk and have had such severe knee pain that I needed to walk with a cane or crutch on and off for several months. From my initial consultation with Dr. Pirozzolo he took the time to thoroughly explain all of my options, the PRP procedure, making sure I was comfortable every step of the way. What really stood out was the personal attention and his depth of knowledge and honesty which gave me confidence in this procedure. The injections themselves were done with care and precision. The in office visit and follow up care was professional and supportive making me feel like a person not just a patient. I began noticing improvements sooner than expected, less pain, better mobility, and now an overall improvement in my quality of life. PRP has made a real difference for me, and I credit Dr. Pirozzolo's expertise and dedication to this outcome. If you are considering PRP injections for joint pain, arthritis, soft tissue injuries, I highly recommend Dr. Pirozzolo. His combination of skill, compassion, and commitment to patient wellness is second to none."

Bob R. (June 2025)

"I have been dealing with persistent hip pain that was really affecting my day to day life. I recently had an appointment with Dr. Jason Pirozzolo, and I was extremely impressed with his professionalism and depth of knowledge. He quickly identified the source of the issue and explained it to me in a way that was easy to understand. What I appreciated most was that he didn't rush into drastic treatments. Instead, he recommended an intra-articular steroid injection as a non-surgical option, and took the time to explain how it works and what I could expect. The whole experience felt very patient-focused and respectful. I was able to schedule my injection with Dr. Pirozzolo for the next day! I went into my appointment and the entire process was fascinating. He used an ultrasound to guide the needle to the right spot. It's been about 2 weeks since the injection and I'm feeling great. I would absolutely recommend him to anyone dealing with joint pain or orthopedic issues."

Uriel D (June 2025)

"Always the best experience when I go over there Dr. DAVE and Dr.Jason are the best around"

Kathy H (June 2025)

"Dr Jason Pirrolzolo is the best!! Painless! Hand injection!!!"

Jeff B. (May 2025)

"The feature that stood out from my visit with Dr. Jason Pirozzolo and Key West Concierge Orthopedics was the total respect for me the patient during the entire process. I was greeted immediately by the front office staff and attention was given to my visit. I feel like every other patient in the waiting room looked content, no one looked unhappy. After a short wait, the nurse took me back to the examining room and took my vitals and asked if I had any concerns or questions for the doctor. When Dr. Jason entered, he knew my name without consulting a form or computer. He thoroughly discussed the results of my most recent xrays and explained their meanings. Dr. Pirozzolo then detailed my options to avoid surgery and speed up healing, discussed my medical concerns and explained supplements that could help ease discomfort. Dr. Jason did not conclude my visit until he was sure that I fully understood everything we discussed, and I did have many questions that he allowed time for me to ask and get answers to. Finally, I was assisted by the front office in setting up my next appointment, super convenient availability. Contrary to the usual hassle I go through on most other medical and business transactions, I consider this to be the best display of what patient care should be. Somebody really knows what they're doing! Thank you to the good Dr. Jason Pirozzolo and his efficient staff!!"

Mary M. (May 2025)

"I live full time in Key West & have chosen to use Advanced Urgent Care on several occasions. Most recently I had an issue with my wrist. I was seen by Dr Jason Pirozzolo. He gave me a thorough work up & referred me for further testing after an X-ray & ultrasound at their facility was inconclusive. I was impressed with his attention to detail and patience with me & my level of pain. The staff is always friendly and efficient. I highly recommend AUC if you are need of medical care in Key West."

Valeria R. (May 2025)

"I recently completed PRP (platelet rich plasma) therapy on my left shoulder. I been an aggressive athlete with my body and after years of jiu-jitsu and flag football with CrossFit, my shoulder has some tendinitis. I wanted to avoid surgery; so after diligently doing X-rays, MRIs and some steroid treatment I've decided to give PRP a chance. I had a great experience with the guidance of the staff who performed the procedure. They were very professional, very clean and neat. From the Nurses to the Provider Dr. Jason. The injection was not painful and I was explained what to expect. Is important to understand that some pain after the procedure is expected, and remember; pain means the treatment is working!! That is a good thing! So don't freak out and learn to trust the process. I been giving my shoulder rest as recommended, stretching and now I'm starting to do therapy to build muscle on my shoulder and make it stronger. So far 4-5 weeks out! I'm able to do the normal activities that cause pain like a simple task of washing my face with absolutely no pain. I'm trusting this process and if you read this far; good luck and trust your process."

Lizyanet R. (May 2025)

"Dr. Jason Pirozzolo is the ABSOLUTE BEST!!! I highly recommend him. He was very kind to me and my son and very understanding of our situation. You can tell he really cares for his patients. He was very thorough during our visit and even followed up afterward to check

on how we were doing. It's rare to find that level of care and attention. Thank you for being such an amazing doctor!!"

Philip S. (May 2025)

"Dr Jason is amazing with knowledge and attention to patients needs. He more than a great caring doctor. He is a healer. !!!"

Gwyn F. (May 2025)

"I can't say enough praises about Dr. Jason and Key West Concierge Orthopedics! I had a bone spur on my wrist and it was aching badly, so I wanted to see a specialist. After I arrived, I was greeted by the doctor within a few minutes and was taken to the x-ray room. Shortly after, Dr. Jason came in and explained to me I had an old injury that developed arthritis around it. At my age, surgery was not recommended, but he explained other options to me. I decided I would come back for a steroid injection the next day. The injection went fine, I hardly felt the needle! Now, days later, my pain has drastically gone down - I am thrilled! Thank you to Dr. Jason for having non-surgical knowledge, expertise, and great kindness towards your patients! Cheers!"

Britt W. (May 2025)

"As someone who works in the medical world, I'm assuming I have a different perspective when I have to visit a doctor than other non-medicine industry patients. I know how busy it can be, and how important it is to have a fully functioning machine of a team to keep things running smoothly, all while making sure each patient is taken care of properly and given time to address their individual issue. That being said, I have to give HUGE kudos to Dr. Jason Pirozzolo and Key West Concierge Orthopedics. When I was in town and twisted my ankle, I thought for sure I had fractured something. I looked up urgent cares thinking there was no way I could get to see an orthopedic specialist, but to my surprise Dr. Pirozzolo was available same day, and is an ortho specialist!! I went in the middle of the day, and didn't have much of a wait before I was taken to a room and greeted by a fellow PA and Dr. Pirozzolo. After he examined my ankle, he didn't think anything was fractured, but since I felt some pain he recommended an X-ray just to be sure. I was shocked at how quickly I was in and out of the X-ray room, and the X-ray tech was really sweet. Thankfully nothing was broken and I just ended up with a pretty purple bruise. Again, I just wanted to commend Dr. Jason Pirozzolo and Key West Concierge Orthopedics! What a great team. Thank you for your care and your help!"

Whitney O. (May 2025)

"I've been a patient of Dr. Jason Pirozzolo for the last couple of years. He has always been kind, professional, and sincere. I feel informed and educated before making any decisions. Parking is easy, right in front of the clinic. Check in process is fast, and the staff is always friendly. The wait times are usually minimal, even when the parking lot looks full, I usually see the doctor within 15-30 minutes. I was so excited last month to find out that Dr. Pirozzolo started a new non-surgical orthopedics program and signed up for that right away. Dr. Pirozzolo always takes his time in person, he also called in an urgent prescription for me the same day as my visit. If you want a doctor that really cares about you, explains everything you need help with and is available everyday of the week if

needed - find Dr. Jason Pirozzolo! I can't say enough good things about him!"

Saige K.C. (April 2025)

"I have gone into the clinic to see Dr. Jason Pirozzolo for numerous reasons, over the last few years. Having a doctor like him in the community is such a blessing! Not only does he specialize in orthopedics, but also sports medicine, and works inside an urgent care so he sees all sorts of injuries and illnesses. My most recent visit was because my wrists have been aching, usually after a long day at work where they are definitely put to work. Dr. Jason listens carefully and took everything I said into account when he made his recommendations. He also gave me some modifications I can easily use while at work. You can even get your X-rays done right there in the clinic. Dr. Pirozzolo is kind and knowledgeable, and the office staff are friendly and efficient. I always feel like I am in good hands when I am there! Highly recommend!!"

Bobby W. (Apr, 2025)

*"What can be said other than pleasantly surprised...a "Young Hot Shot," informative, thorough, educational and above all, Professional!
So glad I went to Advanced Urgent Care. Osteoarthritis, upper torso mostly...couldn't move my shoulder. Dr. Jason was awesome!!!"*

Conrad H. (Apr, 2025)

"On vacay in Key West recently, suffered from severe L hip pain. Could not weight bear. Advanced Urgent Care was wonderful. Started with a bright, pleasant knowledgeable front desk encounter with Xiara and Kelly, to quickly meeting triage nurse Valerie in private room for assessment. She went immediately to Dr.Jayson. He examined me. Ordered xray. Done by Jeff such a pleasant technician. Dr. Reviewed xray, explained treatment plan and provided immediate intervention. Prescription ordered, picked up immediately. Within a day I was back to normal and enjoying the rest of my vacation. Suggest is you need care go here ASAP. Wonderful care. Theresa H, Pennsylvania"

Elizabeth P. (Apr, 2025)

"My fiancé recently had a rough night in Key West and ended up visiting Advanced Urgent Care after he fell on a glass table and injured his arm. From the moment he walked in, the staff was friendly, professional, and efficient. Xiara at the front desk made the check-in process quick and he was seen by Dr. Jason in no time. Dr. Jason did a fantastic job removing the glass from his arm and making sure that he was comfortable the entire time. He was given clear aftercare instructions and was able to get his prescription sent back home to our pharmacy. We highly recommend Advanced Urgent Care of the Florida Keys for anyone needing fast and high-quality medical attention. Thank you all for taking such great care of him!"

Eric K. (Mar, 2025)

"Doctor Jason gave a thorough exam and a comprehensive and detailed analysis of my situation, with suggestions for work, modifications, activity, modifications, supplements, nutrition, and hydration, exercise exercises, and books. So thorough!"

Brittany K. (Mar, 2025)

"Dr Jason Pirozzolo and Kelly Grzybowski , NP provided me with exceptional care when I came into Advanced Urgent Care with fevers, chills, and back pain. The nurse first placed an IV (to only stick me once), drew blood off the IV, gave me fluids for I was severely dehydrated, and they did a renal ultrasound. The imaging showed I had an infected kidney stone ~24mm in size, and both Dr. Jason & Kelly, NP recommended I go to the hospital for IV antibiotics and intervention. Their guidance, care and advice saved my kidney from failing, for the ureter was blocked causing hydronephrosis. I ended up having surgery at Kendall hospital in Miami to remove the stone. These providers showed compassion and understanding. While other providers back home had just given me antibiotics for UTI-like symptoms, Dr. Jason & Kelly, NP knew imaging was necessary. They even contacted me while I was in the hospital to see how I was doing. I am so incredibly thankful for these providers here in Key West!"

Mike (Mar, 2025)

"I had an issue with my Achilles and walked in on a busy Monday afternoon. The receptionist was so kind and immediately got me signed in. Dr. Jason quickly diagnosed my issue, prescribed me medication and even checked up on me the following day. Honestly one of the kindest and most compassionate doctors I've ever met. Thank you Dr. Jason and crew!"

Maureen D. (Feb, 2025)

"I had a puncture wound on my hand and had quite a bit of bleeding when I arrived. As soon as I gave them my insurance card and ID they took me right in to be checked even before completing the paperwork. The entire staff was wonderful from the receptionist, the nursing staff and especially Dr. Jason who stitched my finger. I would highly recommended this Urgent Care."

Jessi L. (Feb, 2025)

"The staff here is very friendly and professional. Dr. Jason was super helpful! I would recommend this place if you are local or traveling to Key West."

Wayne H. (Feb, 2025)

"Great Urgent Care Office.... Love Dr Jason Pirozzolo! Great Dr! Genuinely cares about his patients"

DRKAZ (Feb, 2025)

"Dr. Jason P is THE BEST! Great physician, very professional, and consummate gentleman. Highly recommend!"

Kristen A. (Feb, 2025)

"I've been here twice now and both times I have been met with kindness and care! I was sick with the flu the first time and honestly thought I was going to pass out and one of the front desk ladies noticed and got me in as soon as possible. The second time I decided to slice my finger open cutting a bagel and they got me in and stitched quick! I also have a horrible anxiety issue and the doctor was amazing."

Joseph A. (Jan, 2025)

"Consistently awesome service. Dr. Jason went above and beyond!"

Sarah L. (Jan, 2025)

"Walking into Advanced Urgent Care in Key West, I was greeted right away and with a friendly smile by Sierra. She made me feel very comfortable. She took my information and gave me the attention that was needed. I did not have to sit very long before getting escorted to my room. Dr. Pirozzolo was the attending Dr. He was very nice, assessed what was wrong, ordered what I needed and I was on my way! Thank you"

caroline s. (Jan, 2025)

"Had an amazing experience with Dr. Jason and the front desk ladies. They were kind and helpful and made me feel like they cared and did not wait very long at all for a walk in."

Aleksandra F. (Jan, 2025)

"Dr. Jason was incredibly helpful and professional throughout my visit. He took the time to explain everything clearly and provided exceptional care that made me feel at ease. I had a great experience and would highly recommend him! Kind regards, Dr. Franczak from Vienna, AT"

Dawn S. (Jan, 2025)

"Moving to the Keys was a little worrisome due to rumors about medical issues. I am thrilled that a coworker recommended that I stop going to various doctors and go see Dr. Jason because "he will take care of you". This couldn't be more true! I was in severe pain he took care of my knee immediately checked me for blood clots and gave me the relief I needed after spending a month going to three other doctors. I will now only come here for anything I need. The professionalism and care are second to none. I appreciated his approach and follow up. I highly recommend this facility for all of your medical needs."

Yvonne T. (Jan, 2025)

"From the time we walked in the ladies registering us in to the young nurse that took us in to Dr. Jason stitching my husband's arm and knee was a positive amazing experience."

Morgan M. (Jan, 2025)

"From the first step in, up until the walk out of the door the service and continuum of care was amazing. A friendly face and immaculate service when you feel absolutely horrible is a must. That will be what is present here at this Urgent Care facility. From the techs, to the nurse (spectacular), to the Doctor (amazing) the quality of professionalism and thoroughness is what should be a standard in this industry. If you're feeling terrible and you want a great, friendly, professional experience this is your place to get back on your feet!!!!"

Austin D. (Jan, 2025)

"Great experience! Dr. Jason was knowledgeable and thorough and took the time to answer all of my questions. The staff were friendly and were able to get me in and out in a timely manner. High quality care and high quality people. I highly recommend them for any urgent care needs!"

Paula S. (Jan, 2025)

"Staff was courteous and professional. Wait time wasn't long at all. Dr. Jason handed me material to help in my healing upon leaving Urgent Care"

Lolita H. (Dec, 2024)

"Thank God for Dr. Jason and Advanced medical care. Our son, (age19) has seen Dr. Jason for several issues since he started to the college of the keys. We could not get to the bottom of his recurring ear infections until we saw Dr. Jason! We have seen him in the past for other issues w our son over the summer; And my 85 year old mothers uti infections - he resolved these issues literally within in minutes- clearly renown. Also, my son was in so much pain and upset we walked out and left our ins card behind and Gazelle at the front desk looked every thing up for us so we could be seen immediately- i an so grateful as our son had even seen specialist for ears who was not as thorough as Dr. Jason. His bedside manner is unparalleled as well. Hard to find a great physician down here so THANK YOU FOR HELPING OUR SON JASON we will now feel better when we go home and have to leave him on the island knowing we can request you! "

Darlene P. (Dec, 2024)

"I had a great experience with Dr. Jason! I came in with arthritis pain in my fingers that had been giving me trouble for years. Dr. Jason took the time to explain everything to me in a way I could understand, and I could tell right away that he genuinely cared about making me feel better. He gave me injections, and he was so gentle and precise-I barely felt a thing! Now, I am able to move my fingers more easily and without that awful pain. Dr. Jason has made a real difference in my quality of life, and I'm so grateful to have found such a knowledgeable, compassionate doctor. Highly recommend Dr Jason and this clinic!!!!"

Emily J. (Dec, 2024)

"I had an absolutely wonderful experience at this Key West urgent care! I was helped very quickly with not long of a wait time at all! I was very impressed with the level of service and care provided at this location. Dr. Jason and the nurses went above and beyond to make sure I was taken care of!"

tatiana m. (Dec, 2024)

"Great experience, amazing staff. I went in for a terrible sore throat and got diagnosed with strep. They did the test almost immediately and it was quick and painless. Dr. Jason came in and explained everything and went thoroughly over how I react to certain medications and altered what I should take accordingly."

Nathalie M. (Dec, 2024)

"I'm a local and Dr. Jason is the only doctor I'll go to! He is very professional with his diagnosis and makes sure to go over everything before he leaves. You will leave comfortable and on the mend!"

Austin I. (Dec, 2024)

"Great service, Dr. Jason is thorough and helpful with any issue you might have. Best

Doctor in town!"

Moon Flower (Nov, 2024)

"Dr Jason Pirozzolo & Dr Dave Anthou are both extremely amazing individuals and their staff is beautifully caring! They have gone above and beyond to help in times of need. I cannot thank them enough for all that they do and continue to do!"

valeria r. (Nov, 2024)

"Dr. Jason was very professional, covered all bases and made sure to deliver a specific printed sheet that focused on my personal recovery such as physical therapy, medications, the expected range of motion to the levels of my personal physical activity, and a few books I could read that allowed me to understand more of my injury."

ramses L. (May, 2024)

"hello, my name is ramses, and I wanted to share my experience with Doctor jason. I went in because I need the stitches in my eye, and that needs a total of 11 stitches. he did a great job bearly feel any pain. he did an amazing Job with my eye . Called up on me the day after to check up on me to make sure everything was good. I really appreciate their service. I will definitely be back."

Steve C. (Apr, 2024)

"I felt like I was under the weather and needed to get a quick check up and went into Advanced Urgent Care in Key West. I was immediately greeted warmly at the front desk and didn't have to wait long to be seen. The nurse and Dr. Jason were very professional and knowledgeable. I would recommend this place for anyone! Thank you ! - Steve Canyon"

Darryl H. (Apr, 2024)

"I was an out-of-state resident visiting my family in Key West. For my age, I always think I am in pretty good health, but have had a lingering cough and shortness of breath for a few months. My daughter had heard my breathing and convinced me to go in to Advanced Urgent Care for a full checkup and physical. I cannot express how amazed I was at the attentiveness of the staff! They all were so caring and detailed during all my questions and tests. Gabby was so welcoming and helped with my intake questions and initial EKG test. Taneisha somehow made the experience of receiving respiratory swabs easier by keeping a smile on her face and mine. Dr. Jason was extremely thorough when he came in to explain everything they were checking for and when I could expect notes on any findings. Enzo and Donna were professional and helpful during my echo ultrasound. The front desk staff were also very friendly. Overall, I cannot say enough about the staff, and the fact that I have never had such a thorough checkup in all my life is something I truly appreciate."

Saige K-C. (Apr, 2024)

"I went in to AUC awhile back and had the most amazing experience. Sure they were busy but I now understand why. They constantly made me feel like I was a priority, as well as my needs. Dr. J and the nurse were both unbelievably knowledgeable and professional. I've been to other urgent cares where I felt like I was just a number on a conveyer belt but

this place was amazing. Highly recommend them to anyone in the area!!"

Whitney O. (Apr, 2024)

"Thankful to have this great option on our small island! They are timely, compassionate and responsive! I used their services for my medical clearance requirements prior to an elective surgery. The entire staff made the process simple & streamlined. Even after a hiccup occurred while I was out of the country for a vacation prior to my procedure, they were dependable to find a way to get things done for me even though I was 1000's of miles away. They truly saved the day, my location, and made it possible for me to have my procedure. Beyond thankful to Dr. P and the rest of the Advanced Urgent Care team!!!"

Steven i. (Apr, 2024)

"Dave may be the most compassionate and understanding provider I have ever dealt with. His hunches about what may be ailing me have been spot on as well. Shout out to Jason and all the rest too. Everyone there is very nice. I am a VA patient, and being that the Miami VA is so far away, this place has been a blessing for me with my on going GI issues. Thank You."

Spencer R. (Apr, 2023)

"One of the best doctors office I've ever visited. Super nice, easy going. Got a shot and never once even felt the needle go in."

Jeanette S. (Apr, 2023)

"I fell while on vacation here and went to this clinic. They are the best. Everyone was so kind and helpful and very knowledgeable. The doctor and nurses are great. The doc has a wonderful bedside manner he was very sweet and explained everything to us while showing us the x-ray pics. I highly recommend this place if you need medical care. Great people."

Ceren P. (Apr, 2023)

"Everyone I interacted with from the moment I stepped into the urgent care was all so friendly and kind. I couldn't have imagined a better experience. I had a deep cut near my eye and needed it cleaned and glued, and Dr.P took care of me immediately and did an exceptional job. I even received a follow-up call the next day to inquire about how I was doing. I highly recommend this Urgent Care."

Danny A. (Apr, 2023)

"My wife and I visited Advanced Urgent Care for an injury to her hand and we could not have been more pleased with the experience. The whole staff was super friendly and professional, we were seen to really quickly, and Dr. Jason fixed my wife's hand right up and it hasn't bothered her since. 10/10, would take wife with injured hand again."

Melissa G., Clermont, FL (Apr 7, 2024)

"I formerly saw Dr Pirrozollo for my Carpal Tunnel Syndrome in both hands when he was with this practice. I Loved him & always felt he provided Kind, Compassionate Care. When my right hand began to get more severe, I remembered hearing from Dr Pirrozollo that Dr George White was the best Dr to do the surgery when I was ready. When I called in late

February of this year (2024) I was told the first available appointment in Winter Garden, which is the closest office for me at this point, was six weeks away, on April 11"

Ginny P. (Jun, 2021)

"Dr. Jason Pirozzolo is AMAZING!!!!!!!!!! I had a type of " stem cell" called PRP TODAY- simple, easy, virtually painless because he has a special trick he does when he gives you a shot. I had mine in the knee and quite honestly I am the hugest biggest wimp that there is and was grateful for his secret "trick " of the trade. I did not feel the shot in my knee at all. I would let him do any shot on me anytime. That little trick is amazing.!!! I did a lot of research before I had the procedure done. I liked the fact that it was a 90% success rate, zero downtime and a one time visit!! So far- VERY VERY HAPPY!!! And I was able to avoid knee surgery!!!!!!!!!!!!!! Thanks doc- & darlene!!! "

Sara M., Orlando, FL (Mar 22, 2021)

"Dr. Pirozzolo, his assistant Jen, and every staff member I've met at OHSA have taken such good care of me. My appointments are on time despite their popular downtown office. Whenever friends of mine complain about any shoulder, arm, hand aches and pains, I always recommend Dr. Pirozzolo!"

Sarah W., Key West, FL (Nov 24, 2020)

"Dr. Pirozzolo is the best! He's helped other members of my family with various aches and pains, so I knew exactly who to go see when my wrist started to hurt. It's been a month since my injection and I have no pain!"

Stacy M., Orlando, FL (Nov 17, 2020)

"I had seen Dr. Pirozzolo a few years ago, so I went to him as soon as my elbow started aching. It's been 2 weeks since my appointment now and I have no pain!! Totally recommend"

Christienne K., San Francisco, CA (Sep 30, 2020)

"Dr. Pirozzolo and OHSA docs and staff are awesome! The waiting area is always busy, even out of COVID times, but they're doing well keeping people separated. I always feel well taken care of there, and when I leave I know I am receiving the best care."

Mary A., Orlando, FL (Jul 9, 2020)

"I've been in to see Dr. Pirozzolo at OHSA before, but this time was for my hand. Recently, I had issues opening my palm fully, turns out it was trigger finger. I was hoping I didn't need surgery, and know Dr. Pirozzolo would be honest with me. Luckily, he said an injection to help with the release should do the trick! It was pretty fascinating to watch. I was numbed a bit, then using an ultrasound, he was able to see where the needle was going to put the solution in. It was painless and almost immediately after I was able to open and close my palm. Thank you again and highly recommend anyone to see Dr. Pirozzolo and stop putting off your pain!"

Mary A., Orlando, FL (Apr 29, 2020)

"When this pandemic started, no one was prepared for how our daily normal lives would change. Dr. Jason Pirozzolo and his staff at OHSA have been incredibly helpful! I had a

telemedicine/telehealth appointment with Dr. Pirozzolo and he made me feel like I was having an in person meeting with him. He was informative and really cared about the pain I was experiencing. After speaking for him for a while, he had me speak with his assistant to schedule an appointment. I'm doing my daily light exercises until my scheduled appointment and already feeling less pain and more at ease. Highly recommend!"

Delia M., San Francisco, CA (Feb 17, 2020)

"Clumsy me. Washing dishes the other morning and broke a wine glass - sliced my finger pretty deep in the process. In a panic, my friend searched for hand doctors and Orlando Hand Surgery Associates popped up. Thankfully they said they could squeeze me in later that day, and I was fortunate to be placed with Dr. Jason Pirozzolo. He was calming and knowledgeable, had me stitched up in no time. I was able to ask all questions that came to mind before he left. Very happy to say my finger will be just fine after the healing process is over."

Eliza J., Alafaya, FL (Dec 23, 2019)

"Dr. Jason Pirozzolo was awesome. I noticed that my left elbow was hurting every time I extended it and only being in my 30's, I wasn't alright with that. I don't play sports, but do go to the gym and use weights and machines. Dr. Pirozzolo is so well versed in sports medicine and that he has a strength/conditioning specialty, he knew that it was just the start of tennis elbow. Thankfully it's feeling better due to his advice on not lifting with it for a while, and instead just doing some gentle exercises. No injection needed at this time unless it keeps hurting - happy a doctor was so honest!"

Jack S., Key West, FL (Nov 27, 2019)

"Can't say enough about Dr. Jason Pirozzolo, also known as Dr. P by some. I had a lump on my arm and it was a constant bother. I didn't want anyone seeing it, nor did I want the darn thing getting any bigger. Made an appointment with Dr. Pirozzolo since I had heard of him and the awesome staff at Orlando Hand Surgery Associates through friends. Dr. P removed it and now I'm good as new, would highly recommend!"

Julia D., San Francisco, CA (Oct 31, 2019)

"I cannot say more great things about Dr. Jason Pirozzolo! My 12 year old son had a cast on his arm and was complaining about it constantly. I figured it was just because casts and 12 year old children don't mix well, but took him to go see a different doctor just in case. I am so happy I did - it turns out the cast was put on slightly skew. Dr. Pirozzolo removed the cast, and re-casted my sons arm. Luckily his new recovery time will only be a couple weeks longer than expected. I have since spread the word to all of the school moms about his expertise and highly recommend Dr. Pirozzolo and OHSA."

Gloria P., Alafaya, FL (Sep 5, 2019)

"Thank goodness a friend referred me to Dr. Jason Pirozzolo at Orlando Hand Surgery Associates. I have been having shoulder aches for the last 5 months, hoping it would go away on its own. It mainly hurt when I slept on it and I couldn't raise it above my head without it hurting. I went in to see him hoping I didn't need surgery. He gave me a cortisone injection and taught me some light exercises to do at home to help heal, but not

to overdo it (which is hard because I'm usually so active). He was so kind and even called a week later to check up on me. So thankful!"

Lidia C., Orlando, FL (Jul 9, 2019)

"My daughter, who is twelve at the moment, decided to start her summer off with a bang - by fracturing her arm on a trampoline. She was devastated that her summer was ruined. Luckily, we had heard of Dr. Jason Pirozzolo at the Orlando Hand Surgery. I made the appointment and they were able to get us in the same afternoon after I explained what had happened. We didn't know it was a fracture, but after a couple xrays, Dr. Pirozzolo said it was minor and she was lucky and may be able to have the last couple weeks of her summer saved. He put on a splint and we've gone to see him a couple more times, she is healing beautifully and I could not be more grateful for this knowledgeable and kind doctor."

ZULMA B. (Jun, 2019)

"I know Dr. White several years ago and he's been treating me and did surgery for my hands and shoulders. He and his son are the best in Orland, you don't have to look forward when you are in they're hands, best bedside manners, they treat you like family and try to do the best for you. Dr. Pirozzolo also, only saw Dr. Patel one time when he remove some stitches and he's been very good to. They also have an excellent staff, Maritza help me a lot and is so kind and wonderful, also Francheska when she schedule the surgery, Rocky , like I said when you walk in that office is like your walking thru your home. Excellent Drs. and personal no need to go other place. God Bless Orlando Hand Surgery and they're staff. Maritza you are the best....."

Turner W. (May, 2019)

"Dr Jason Pirozzolo is the best!!! He is caring, patient, skilled and knowledgable. I am so thankful for all of his help. I have had tennis elbow in both of my arms. One while I was pregnant. He figured out ways to help with the excruciating pain while not jeopardizing the pregnancy in anyway. I honestly don't know what I would have done without him!"

Jason D. (Apr, 2019)

"This should have been 5 stars. Dr Pirozzolo was prompt and thorough. I have not had any hand pains since the visit. Thanks!"

Jacob S., Bloomfield Hills, MI (Mar 16, 2019)

"Was so thankful to find a doctor like this when I was in a crunch, Dr. Pirozzolo was awesome. Visiting from out of state and I fell and hurt my wrist when I was at the beach. I put ice on it and figured it would be okay. Later that night it was bruised and started swelling and was getting more painful. My aunt had visited Orlando Hand Surgery Associates and Dr. Jason Pirozzolo before and recommended I see him before heading back home. He confirmed that I had fractured it with X-rays, but luckily he thought I may heal over 2-3 months with my cast and a splint. He had me in and out of there in no time and I was able to enjoy the last few days of vacation."

Shelton L., Orlando, FL (Apr 2, 2019)

"Having just turned 60, I'm appreciative that my shoulder hasn't given me any pain since I visited Dr. Jason Pirozzolo at Orlando Hand Surgery Associates. I've played golf most of my life, until I started feeling a singe of pain in my shoulder. It even made lifting up my arm to give hugs uncomfortable. Dr. Pirozzolo knew immediately it was shoulder bursitis, he listened to me whine that I didn't want surgery, and told me that he could help with my inflammation and pain by simply giving me a cortisone injection into the shoulder. Later that day, after leaving his office, I helped my wife put away groceries onto shelves that a couple days prior I would not have been able to lift my arm up to. Amazed at how it worked, thank you Dr. P!"

Steven R., San Francisco, CA (Feb 28, 2019)

"I played sports in high school and college, but never thought I would be having aches or pains when I hit 30. I went in to Orlando Hand Surgery Associates complaining about wrist pain, very sure I did not want to have surgery, and met with Dr. Jason Pirozzolo. He was awesome, very knowledgeable and specialized in sports medicine, so I knew I was in good hands. He determined it was wrist tendonitis. I was so happy when he told me that all I needed was a cortisone steroid injection to help with pain and inflammation. Dr. Pirozzolo gave me the shot and I'm feeling so much better, no pain. Would highly recommend him to friends."

Wanda S., San Francisco, CA (Jan 23, 2019)

"I cannot thank Dr. Jason Pirozzolo and the staff at OHSA enough! I lived for an entire year ignoring the pain in my elbow. I figured it was old age and would need surgery eventually, but Dr. P gave me a cortisone injection and now one week later I feel good as new. Their wait room is usually very busy, but the staff makes it flow smoothly and I've never waited longer than 5 minutes to be taken back. I've never felt so welcomed at a doctors office!"

Paul M., Longwood, FL (Nov 29, 2018)

"The whole team at OHSA were great! It was my first time seeing Dr. Pirozzolo so I wasn't sure what to expect. But the moment I walked in the wonderful lady at the front desk attended to me right away. My appointment was at 8am but I got there at 7:30 to do paperwork and the waiting room was already full of people. They were being called back right away so my wait time was not long at all and I was taken back before 8. Once I was called back the x-ray technician took x-rays of my hands and had me in the doctors office literally in minutes. My primary doctor told me the pain in my hands were caused by age (I'm only 49) and there is nothing he can do for me about the swelling and pain. Dr Pirozzollo told me exactly what was wrong with my hands and fingers and was able to give me a shot that would relieve all the pain and swelling I was experiencing. To top that he said it was not a temporary fix. With proper care I should no longer feel pain again. A far cry from what my primary doc said."

Rebecca C., Lockhart, FL (Nov 26, 2018)

"Dr. Jason Pirozzolo is my favorite doctor! I've seen him a couple times for various aches, but this time I went in because my wrist was driving me crazy. The last thing I wanted to do was have surgery, so I paid Dr. Pirozzolo a visit. He knew right away it was carpal tunnel, gave me a cortisone injection in my wrist, and later that day all of the pain had

subsided! If you want to avoid surgery and want a professional that knows what he's doing to help you, Dr. Pirozzolo is the man for the job."

Nancy B., Eagle Lake, FL (Nov 5, 2018)

"Dr. Jason Pirozzolo treated me for Dupuytren's contracture in my left hand. He knew exactly what it was when I came in and gave me a corticosteroid injection. The pain was minimal and almost immediately I was able to open my palm again and lay it flat on the table. Dr. Pirozzolo is wonderful and the staff at OHSA were very friendly. I would highly recommend anyone to Dr. Pirozzolo for any ailments concerning the arms, wrists, hands, elbows, shoulders."

Jerry S., Clermont, FL (Jul 10, 2018)

"I've been having shoulder pain for a couple of years now, worked in construction most of my life. The pain got to a point where I couldn't even get comfortable in my own bed. The last thing I wanted was to have surgery and take time away from work, and I had already tried cortisone injections which didn't last long. Friends of mine highly recommended Dr. Jason Pirozzolo at OHSA. Dr. Pirozzolo was great, he explained my options, potential outcomes, and recovery times. I opted for trying out PRP or platelet rich plasma shots, I liked how it used my own blood and recovery time was minimal. It's been a couple of weeks now, and so far I have slept through the night without waking myself up from pain. I also highly recommend Dr. Pirozzolo to anyone with aches and pains in their arms!"

Kira S., Sacramento, CA (May 18, 2018)

"Dr Jason Pirozzolo is the best!!! He is caring, patient, skilled and knowledgeable. I am so thankful for all of his help. I have had tennis elbow in both of my arms. One while I was pregnant. He figured out ways to help with the excruciating pain while not jeopardizing the pregnancy in anyway. I honestly don't know what I would have done without him!"

Matthew M., Orlando, FL (Jan 17, 2018)

"I went to see Dr. Jason Pirozzolo because I developed Dupuytren's in my left hand. It wasn't severe, so I put it off as long as I could until the hand cramping really started to bother me. What Dr. Pirozzolo did for me was a miracle, I can finally lay my hand flat on a table and have full mobility with no pain! I highly recommend Dr. Jason Pirozzolo and his awesome staff at the Orlando Hand Surgery Associate office."

Renee S., Maitland, FL (Dec 11, 2017)

"Dr. Jason Pirozzolo treated my wrists for osteoarthritis with corticosteroid injections and I couldn't be happier with the results! I don't want to have any kind of surgery so I was happy to hear Dr. Pirozzolo say that I could try these injections. Dr. Pirozzolo is very friendly and made me feel comfortable, even though I am scared of needles. He even followed up with me a couple weeks later to check on how I was doing. I highly recommend Dr. Pirozzolo and the warm staff at OHSA!"

Miranda F., Pensacola, FL (Oct 10, 2017)

"Dr. Jason Pirozzolo is the best! He is kind and knowledgeable and knows exactly what is going on when you come in experiencing pain in your wrist! After a week or so after a PRP

injection, I felt so much better. I previously couldn't even lift a pot or pan while cooking without feeling like I was going to drop it. After visiting Dr. Pirozzolo, I'm back to normal, highly recommend!!"

Donald F., Tallahassee, FL (Jul 11, 2017)

"At age 77, finding a physician like Dr. Jason Pirozzolo can make all the difference in the world. I've suffered from osteoarthritis pain for many years, but after he used a corticosteroid injection into my shoulders, I'm back to raising my arms again with no pain. Dr. Pirozzolo and his staff have been caring miracle-workers and I appreciate them all very much."

Cathy M., Ocoee, FL (Jun 7, 2017)

"Dr. Jason Pirozzolo and the staff at Orlando Hand Surgery are wonderful! From waiting a short 5 minutes in their welcoming and clean sitting area, then being escorted by friendly staff to meet my doctor. Dr. Pirozzolo quickly evaluated why my thumb has been aching the last couple months, he explained it clearly so that I could understand I had severe arthritis in not one but two of the joints. He also went through my treatment options from injections all the way to surgery and the possible outcomes. Since I wanted to avoid surgery as long as possible, I went in a week later for PRP injections into both joints. Injections into joints aren't fun, but here I am, 2 weeks later and my thumb feels so much better! I highly recommend Dr. Pirozzolo and exploring alternate treatment options if you're trying to put off surgery. It's not often you meet a doctor that really cares and is so knowledgeable. I am so grateful!"

Marjorie R., Winter Garden, FL (Jun 4, 2017)

"I visited Dr. Jason Pirozzolo at OHSA a few weeks ago for elbow pain that had been bothering me for months. I can not explain how happy I was when he told me he could help me in a single visit. Dr. Pirozzolo was right, he gave me an injection and I am back to playing tennis! The office staff was wonderful. The only problem I had was a mix up with the registration so I had to wait a little bit before being called back. I mentioned that to Dr. Pirozzolo just thinking he would say sorry and that would be it... but 2 weeks later I get a hand written card in the mail from Dr. Pirozzolo checking on my elbow and apologizing again for the wait. I've never had that happen with a doctor before! I highly recommend Dr. Pirozzolo and the entire practice. Definitely worth the visit! Thank you Dr. P!!!!"

Blanca R., Davenport, FL (May 13, 2017)

"Dr. Jason Pirozzolo is so caring and attentive. Listens to your concerns and before you know it your feeling 100% again."

Margaret M., Orlando, FL (May 1, 2017)

"Dr. Jason Pirozzolo and his staff at Orlando Hand Surgery Associates are always so warm and friendly. I told Dr. Pirozzolo that I was scared to have surgery on my elbow and was praying he had another solution. It started to feel tinges of pain and very stiff while playing tennis. Dr. Pirozzolo told me to look up Platelet Rich Plasma or PRP Therapy, to think about it, and get back to him if it sounded like something I wanted to try. I called him the same afternoon to set up a procedure. Removing the blood was painless, and when he re-

injected the PRP it felt like any other injection - such an easy experience! Now I have no pain and my elbow doesn't feel stiff anymore. I highly recommend Dr. Jason Pirozzolo and OHSA for anything joint related!"

Julianne R., Orlando, FL (Mar 27, 2017)

"A friend of mine recommended Dr. Jason Pirozzolo at Orlando Hand Surgery Associates for PRP injections, and boy was I happy when I could see him shortly after for my own PRP injections! I wasn't too keen on committing to surgery to fix my shoulder, I've been having pain and was fearful that cartilage was wearing away slowly. I love going to the gym and lifting weights and I knew surgery would keep me out of the gym for too long. Non-surgical treatments sounded like a much better fit for what I was looking for and Dr. Pirozzolo could do just that for me. It's been a couple weeks now, and I'm back in the gym and haven't felt any tinges of pain yet - I highly recommend Dr. Pirozzolo and OHSA. Both he and the staff there are awesome!"

Katherine O., Orlando, FL (Mar 24, 2017)

"I fractured my wrist while snowboarding in March 2017. I was fairly devastated when it happened and scared to under go necessary surgery. However, from the first call to OSHA, and every interaction I've had since, my experience was exceptional. I cannot stress enough how great the doctors and staff are at OSHA. Dr. Pirozzolo shows genuine care for his patients. and makes you feel at ease during a stressful time. Dr. Pirozzolo, Dr. White, and the staff made a bad situation SO much better! I was in a removable cast and was able to write and type within a week and a half of surgery! Very happy patient. :)"

Elcy H., Orlando, FL (Feb 15, 2017)

"Visited Orland Hand Surgery and was lucky to be placed in the care of Dr. Pirozzolo. My wrist and forearm had been bothering me lately and he found out that I actually was dealing with a sprain! Luckily, it was something that a simple wrist splint could heal, but since I had gone so long without getting my wrist looked at, he also told me about different exercises to regain strength and to keep my wrist flexible. Dr. Pirozzolo is very kind and thorough with his evaluation. He even called me a couple days later to make sure I was keeping up with my exercise routines."

Karen S., Geneva, FL (Feb 13, 2017)

"I've seen several different doctors about my knee pain and each suggested that I needed to have surgery or a knee replacement. When I heard that Dr. Jason Pirozzolo was doing PRP therapy, I thought it wouldn't hurt to give it a try. A couple of weeks after my PRP procedure I was working all day on my knees and noticed that I had no pain at all. I would've never been able t do that before PRP. I would highly recommend Dr. Jason Pirozzolo for PRP therapy."

John K., New York, NY (Feb 9, 2017)

"I had a very severe injury to my right hand. I cut my hand/pinky/ring finger down to the bone (30-40 stitches), could not move it or have much feeling in the finger. Dr. Pirozzolo was able to see me right away and figure out the best way to repair my hand. He was very caring and put me at ease even though it was such a scary injury. I had surgery to repair

the tendons and nerves. Within 3 months I'm back to playing golf again, I have full mobility, and can't thank these doctors enough!"

Roger B., Lakeland, FL (Jan 2, 2017)

"Dr. Pirozzolo was fantastic! I have severe shoulder arthritis and wasn't ready for a surgical shoulder replacement and steroid injections were no longer working well. Dr. Pirozzolo recommended a new type of injection called platelet rich plasma or PRP. The downside, it isn't covered by insurance but it's been 3 months now and well worth it because my shoulder feels GREAT. I recommend Dr. Pirozzolo to all my friends and family. He and his staff are awesome!"

Ethel C., Winter Park, FL (Dec 7, 2016)

"Dr. Pirozzolo is a knowledgeable and kind doctor. I brought my grandson in when he hurt his arm on the playground. Dr. Pirozzolo knew he had a forearm fracture, and prepped him for a cast. They even had green which is his favorite color, so that made him very happy! I would recommend Dr. Pirozzolo to anyone, he shows patience with children and truly takes the time and care needed with patients. The office is clean and the staff are always friendly too!"

Frankie H., Oviedo, FL (Oct 17, 2016)

"Dr. Pirozzolo is a true professional! I went to see him for pains I was experiencing in my hand. He was able to give me an injection to fix the problem. Dr. Pirozzolo even sent me a hand written card in the mail to check on me after the initial visit! His staff are also very sweet and their clinic is clean and classy!"

Kelly H., Orlando, FL (Oct 12, 2016)

"I hurt my thumb pretty bad bowling and ended up coming to Orlando Hand Surgery to have it looked at. You're able to fill out all the paperwork online prior to your appointment, which speeds up the process. They also take x-rays on site, which is awesome! The doctor is able to look at the x-rays right at your appointment and let you know what's wrong. I ended up spraining my thumb severely and needed to get back to bowling ASAP. Dr. P. was able to fix me up fairly quickly with some added physical therapy and I'm back to bowling, as good as new! I ended up going to see Dr. P. three times and I never had to wait more than 10 minutes in the waiting room for my appointment, which was amazing! I was in and out within 30 minutes every time. Dr. P. is very personable and I'd recommend him to anyone."

Chrissy G., Orlando, FL (Jun 3, 2016)

"I cannot say enough positive things about my experience with Dr. Jason Pirozzolo and Orlando Hand Surgery Associates. First, the office staff was extremely friendly and welcoming. I was a little nervous about my appointment since my primary doctor wasn't sure what treatment I needed for a lump in my finger and a shoulder injury. Thankfully, from the moment Dr. Pirozzolo entered the exam room his calm demeanor immediately made me feel at ease. I appreciated that he took his time to explain my diagnosis in terms that were easy to understand and what my options were for treatment. He also made sure all my questions were answered before leaving the exam room. Not once did I feel rushed,

which is a rarity these days. Bottom line Dr. Jason Pirozzolo is an amazing, knowledgeable physician who I would highly recommend to anyone in need of his services."

L C., Winter Garden, FL (Apr 12, 2016)

"My husband and I have been having problems with our hands. I was pregnant so got swollen and needed help as couldn't feel my hands. Dr. Jason Pirozzolo fixed them perfectly and I feel so much better. My husband does fitness classes so injured his fingers. The steroid injection fixed it. Dr Pirozzolo takes time to explain things and takes his time with each of us. We enjoy going there and are grateful to have such a specialized doctor in the Orlando area !"

Barbara G., Colorado Springs, CO (Apr 3, 2016)

"My recent visit to Dr. Jason Pirozzolo went very well and I was really pleased. He is an amazing doctor and treated my arthritic thumbs with injections after xrays and explaining all my options. He has the most reassuring manner and was very gentle and skilled with the injections. The staff was very nice despite some computer down time. They still got me in quickly."

Barbara G., Colorado Springs, CO (Jan, 2016)

"Knowing your doctors are the best you can expect first class care. Dr. Jason Pirozzolo was wonderful and after x-rays and careful explanation of my options helped me with a non surgical choice and injected both of my arthritic thumbs. He made it painless!"
